

aiR30™

by Southwest Windpower

Making renewable energy fun

AIR 30 is the best choice for reliable energy for small cabins, RVs, camping, garden lighting and hobbies. AIR 30's optimized software delivers reliable energy. Extensive third party testing and certification shows more consistent output than the competition. AIR 30 is part of the latest generation of AIR products—the world's best-selling wind turbines—with more than 135,000 units sold worldwide.

We recommend AIR 30 for small battery-charging applications such as small cabins, RVs, camping, garden lighting, education, hobbies and more. The AIR 30 is an ideal wind turbine for hybrid systems with solar. Not for use in marine environments. AIR 30 is built and backed by the worldwide leader in small wind.

- Advanced microprocessor for reliable energy production
- Integrated overcharge protection
- Permanent mold cast aluminum body
- High-quality, field tested components
- Quiet operation
- Lightweight; easy to install
- Energy in light winds
- Plug and play battery connection
- For use in non-corrosive environments

5 YEAR LIMITED WARRANTY
TECHNICAL SUPPORT WORLDWIDE

Energy	Approx. 30 kWh a month at 13.4 mph (6.0 m/s)
Swept Area	11.5 ft ² (1.07 m ²)
Rotor Diameter	46 in (1.15 m)
Weight	13 lb (5.85 kg)
Shipping Dimensions	27 x 15 x 9 in (686 x 38 x 228 mm) 17 lb (7.7 kg)
Start-Up Wind Speed	8 mph (3.58 m/s)
Voltage	12, 24, and 48 VDC
Turbine Controller	Microprocessor-based smart internal regulator
Body	Permanent mold cCast aluminum
Blades	3-Carbon fiber composite
Alternator	Permanent magnet brushless
Overspeed Protection	Electronic torque control
Survival Wind Speed	110 mph (49.2 m/s)
Mount*	1.5 in schedule 40 pipe 1.9 in (48.26 mm) OD

*Southwest Windpower offers a range of tower options specifically designed to work with the AIR family of products.
