Subject: Intermateability of T4 connector with MC4

Dear whom it may concern,

Thank you for your inquiry about our product.

Changshu Tlian Co., Ltd has completed testing and got approval through CCIC-CSA for recognition of the T4 and MC4 connection. This is in addition to and separate from Tlian listing on their connector assemblies, giving recognition of the safety of the interconnection between a T4 and MC4 type connector, as a result of this approval, it is no longer necessary to use the T4 to MC4 type connector conversion cables. T4 and MC4 connectors have approval to be connected together by CCIC-CSA.

The products covered by this bulletin are the T4 connectors T4-M (Male) mated with the connector MC4-F (Female) and connectors T4-F (Female) mated with the connector MC4-M (Male).

Canadian solar hereby confirms the warranty of module will not be void and will remain intact.

For more detail, please refer the compatible report: T4&MC4 T4&H4 test report

Sincerely,

A handwritten signature in black ink that reads "Ximei Wu".
